Office Action Summary	Application No. 09/978,589	Applicant(s) PERKES ET AL.	
	Examiner Jean Janvier	Art Unit 3622	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9, 15 and 16-29, drawn to a method of and a system for operating a monetary exchange, allowing, among other things, advertisers or retailers to promote products and services to targeted consumers (individual consumers) and compensating a consumer for viewing an advertisement.
- II. Claims 10-14, drawn to a method of and a system for assigning priority levels to each of the at least one consumer in a group of consumers so **that a higher priority consumer is capable of limiting a lower priority consumer's credit accumulation and use rights**, wherein the higher priority consumer and the lower priority consumer are in a same group.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination, as shown above, does not require the particulars of the subcombination as claimed. Indeed, the

Art Unit: 3622

subcombination has separate utility such as assigning priority levels to each of the at least one consumer in a group of consumers so **that a higher priority consumer is capable of limiting a lower priority consumer's credit accumulation and use rights**, wherein the higher priority consumer and the lower priority consumer are in a same group.

Because these inventions are distinct for the reasons given above and the search required for Group I, for example, is not required for Group VI, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
